

Eileen Donoghue  
City Manager

## ADVISORY

**DATE:** February 14, 2020

**SUBJECT:** Exploratory Excavation Work at Lowell High School

---

Beginning on Tuesday, February 18, the Lowell High School Project Team will begin investigating soil conditions around the site of the high school construction project. The public should expect to see contractors and specialized equipment staged or in use at various locations across the campus during the investigation. Heavy equipment and other support equipment will be on site to dig test pits. Laborers may wear poly coveralls (Tyvek) and possibly respirators. Specialty signage and caution tape will isolate the work area and may mention asbestos as required by State and Federal regulations since surveying for asbestos will be conducted.

**What:** Exploratory Excavation Work at Lowell High School

**When:** School Vacation Week – Tuesday February 18th – Friday February 19th 7am – 5pm

**Where:** Exterior of 1980's Building, Field House and 75 Arcand Drive

**Why:** As part of the design and planning process for the Lowell HS Project the City and Project Team are proactively investigating existing soils conditions with their environmental consultant Nobis Group.
